Amendments to the Specification

Please replace page 3, lines 25-32 of the specification with the following replacement paragraph:

OCT 15 2007

The network of the present embodiment, as illustrated by figure 2, comprises a wireless sub-network 21 conforming to IEEE 802.11 and a wired sub-network 22 conforming to IEEE 802.3 (Ethernet) connected through an access point 23 26. The wireless sub-network comprises, in addition to the access point 23 26, three stations 23, 27 and 28. The station 23 will also be referred to as 'wireless box' or 'wbox,' designating its specific function for connecting other devices, in this case device 24 (e.g., a personal computer or domestic equipment such as audio/video receiver) to the wireless sub-network.
